6th Edition INSTRUCTIONS AND ROUNDS 1-45

OBJECT:
To have the most points at the end of three games by matching the most popular survey answers.

CONTENTS:
1 Scoreboard with sections for Face Off and Fast Money Rounds, Totals, and Strike Indicator; 1 Wipe Off Marker;
2 Face Off Button Cards; 1 Survey Question / Instruction Book

SET UP:
1. Separate the Face Off Round Button Cards. Align them as shown to replicate the Face Off Podium from the Family Feud TV Game Show.

2. Each page in the book contains two complete rounds. One round equals a Face Off, The Feud and The Fast Money Bonus Round.

3. Choose a player to be the Emcee.

4. The remaining players divide into two teams. If there is an uneven number of players, make the teams as evenly balanced as possible.

EMCEE DUTIES:
The Emcee will read the questions, record strikes, announce the answer, its point value and placement on the scoreboard and add up the total points.

PLAYING FOR 3 OR MORE PLAYERS:
Throughout the game, players will try to match their answers with the most popular survey answers. Each game consists of four parts: Three Face Off Rounds and the Fast Money Bonus Round.

For a 3 player game, one player acts as Emcee/host with remaining two playing against one another.

THE SCOREBOARD
The Scoreboard is divided into three sections:

The Face Off and Fast Money Answer Boards, and the Scorecard.

1. In the Face Off Round, the answers and points are placed on the Face Off Answer Board section, with the number one answer and its points placed at one, the number two answer and points at two, etc.

STRIKES are recorded in the Strike Boxes

2. At the end of each survey question, the points are totaled and added to the scorecard for the winning team. The Face Off Answer Board is then wiped clean for the next round.

3. In the Fast Money Round, answers are recorded on the Fast Money Answer Board section.

THE FACE OFF ROUNDS
Each Round begins with a one-on-one Face Off as a player from each team tries to take control of the question by giving the most popular answer. The Family Feud 6th edition features 2 Face Off Round Button Cards so players can recreate the Face Off Round excitement from the TV game show!

Each team chooses a player for the Face Off. These players may sit or stand closest to the Face Off Round Button Cards with one hand behind their backs and the other above the red button image.

The Emcee reads aloud question #1. When either of the two players has an answer, the player slaps the button and shouts their name to "buzz in". (In case of a tie, the Emcee decides who "buzzed in" first). The player then must answer the question immediately. If the player's answer is the number one answer for the survey question, they may choose to pass or play.

If the answer given is not the top answer on the board, the opposing team is given a chance to give an answer.

If their answer is placed higher, they get the chance to pass or play. If their answer is lower, control goes back to the first team.

NOTE: If a player fails to give an answer immediately, they lose their turn.

If both players give an answer that isn't on the survey, a new player is chosen from each team to answer the question in the same order as the first two players. In a 3 player game, each player gets another chance, in turn, until the question is in play.

The answers and their point values are written on the Face Off section of the scoreboard.

The Winner of the Face Off may play the question or pass the question to the other team. The team playing the questions becomes the "controlling team".

Question #1: Players on the controlling team take turns guessing the answers to question #1. Players cannot help each other answer the question. In a 3 player game, the player in control tries to give all the remaining answers before three strikes are made.

Emcee Duties: The Emcee announces how many answers there are to the survey. When a player gives a correct answer, the Emcee announces the answer, placement on the scoreboard (#1-8) and corresponding points for that answer. (Writing these on the Face Off Answer Board).

When a player gives an incorrect answer or takes too long to give an answer (determined by the Emcee), it counts as a strike. The Emcee puts an "X" in one of the three strike boxes.

Winning the Round: If the controlling team gives all the remaining answers to Question #1 without getting three strikes, the points are totaled and added to the Scorecard under their name.
If the controlling team gets three strikes before all the remaining answers are guessed, the opposing team takes control and is allowed one guess to try to match a remaining answer and steal the points.

If they don't guess correctly, the points are awarded to the original controlling team.

Face Off Round 2 – Double Points
Question #2: A new member from each team is chosen for the Face Off and the Emcee reads question #2 aloud. The game is played the same as in Question #1, but the final point total is doubled when written on the scorecard section for that round.

Face Off Round 3 – Double Points
Question #3: A new member from each team is chosen for the Face Off and the Emcee reads question #3 aloud. The game is played the same as in Questions #1 and #2. As on Question #2, the final point total is doubled when written on the scorecard section for that round.

THE FAST MONEY BONUS ROUND
Unlike the TV game show, BOTH teams playing the Family Feud home game will play in the Fast Money Round.

Who Plays: One player from each team plays in the Fast Money Round. Other players may not help their teammates with the Fast Money Round answers.

The Emcee reads aloud each Fast Money Round question. After each question is read aloud, the two Fast Money Round players state their answer which is written on the Fast Money Round section of the scoreboard.

The player whose team had the most points at the end of the Face Off Rounds answers first. The opposing player will answer second. Just the answers are written on the scoreboard – NOT THEIR POINT VALUE. Players cannot have the same answer. Should a repeat answer be given, the Emcee will say "Try again" and the player will give another answer. The Emcee may wish to have another player write the answers to help make the Fast Money Round move along more quickly.

When all five Fast Money questions have been played, the Emcee reveals the point values for each answer. The points are added to the Fast Money Round scoreboard and the total points are TRIPLED and written on the designated scorecard space. Points for all Rounds are then calculated and written in the TOTAL space.

The team with the most total points is the winner of the FAMILY FEUD!

GAME #1

ROUND 1

A SONG MIGHT BE A "HIT." NAME SOMETHING ELSE THAT MIGHT BE A "HIT."

ANSWERS	POINTS	ANSWERS	POINTS
MOVIE	19	BASEBALL/SPORT	8
TV SHOW	8		
DANCE	8
